Petersburg, November 28.

**H**IS Czarian Majesty has by his Clemency not only given Liberty to the Burghers and Inhabitants of Narva, who were dispersed in his Dominions for having formerly defended that Town in conjunction with the Swedish Garrison against his Majesty's Forces when it was taken by Assault, but has given them Leave to return thither and take Possession of their Houses and Goods that remain, and carry on their Trade as formerly, paying the ordinary Duties. And although his Majesty has always reserved to himself the Monopoly of Tobacco and Salt in all his Dominions, he has been pleased, out of a singular Goodness, to remit it in Favour of those People, to help them in recovering their Fortunes, so that they will have full Liberty to bring in and carry out those Commodities as well as others. He has moreover granted them a Church without the Town for the free Exercise of their Religion. These poor People therefore, after so many Miseries that they have endured in their Exile, have the Consolation to return to their Country with Comfort. The new Academy which the Czar has founded here, flourishes more and more by the Care of the Baron de St. Hilarius, who is Director of it; and his Majesty has given to it the fine House of the Sieur Kikin, where are many Apartments and large Conveniences for teaching the Exercises, which are Horsemanship, Military Exercise, Foreign Languages, &c.

**Vienna, Dec. 17.** The Court has at last resolved to let the Turkish Aga with his Train come hither, in order to hear the Propositions which he is ordered by the Porte to make: And to this purpose an Express is already sent to the Frontiers to let that Minister know that he may pursue his Journey.

They have found Means to impart to the Empress Regnant, the News of the Death of the Czarewitsa her Sister in so gentle a Manner that it has made no Alteration in her Health. We hear from Turkey, that the Porte is resolved to make its utmost Efforts to attack the Venetians by Sea next Spring with a powerful Fleet; besides which they will have three great Armies on Foot to act in Dalmatia, in Hungary, and in Poland. For this reason Prince Eugene has put off his Journey to the Netherlands till Spring, in order to see first what Course Affairs will take, and to be present at the arrival of the Turkish Aga, and Personally to assist in the Council of War, whereof he is President, when the Preparations and Dispositions for the next Campaign shall be treated on, after it has heard what that Minister has to offer: After which his Highness will take a Turn to the Low Countries in Quality of Governor-General, and regulate the Administration of Affairs.

From the Brussels Gazette, dated Dec. 27. **Leysburg, Dec. 1.** The Captain of a Ship lately arrived from Alexandria in Egypt, reports that the Bassa of Grand Cairo had beheaded 15 of the Principal Turkish Inhabitants of that City, for having joyned with the Populace in opposing the Demand he made of 1000 Purfes. We hear from Tunis, that the Ships of that Regency were returned thither from the Service with the Ottoman Fleet in the Levant, as are also those of Algiers and Tripoli, each of these three Fleets being complimented with a Ship of the Grand Signior's as a Reinforcement. A Maltese Bark laden with Merchandize and furnished with French Passports, has been seized at Tripoli. And the Corsairs of that Port have brought in a small Maltese Ship wherein were four Knights of Malta in disguise of private Soldiers, with 1200 Louis d'Ors about them, who were bought by the French Consul as such Persons; but the Corsairs having afterwards learned that they were

*Leipsick*, Dec. 11. The King was expected  
 Yesterday at Torgaw to take his Leave of  
 the Queen, and his Majesty will depart this  
 Week to return to Warlaw. Some Advices  
 from Transilvania say that the Grand Sig-  
 nior being returned to Constantinople, had  
 expressed himself displeased with M. Fleisch-  
 man, his Imperial Majesty's Resident, by  
 reason that he looked upon the Proposals  
 made by that Minister to tend towards the  
 breaking of the Peace of Carlowitz.

Mentz, Dec. 18. 'Tis said that our Elector uses all his Endeavours to obtain for Cardinal Schonborn the Electorate of Triers; which however, in case the Canons of that Cathedral continue united, 'tis thought will hardly be effected. We have lately sent a good Quantity of Meal out of our Magazine to Philipsburg.

Cologne, Dec. 20. We see here a sort of Manifesto of the Elector of Cologne's, to justify his Conduct upon the Subject of the Dutch Garrison which he caused to go out of Bonne; but it does not seem that this Writing makes any great Impression in his favour. 'Tis assured that the Equipage of the Duke of Lorrain has already passed by Ulm going to Vienna, and that the Duke himself will soon follow it. The Elector of Cologne has received from the Count de St. Maurice, his Envoy at Paris, a Relation of the Battle in Scotland.

From the Antwerp Courant, dated Dec. 27.

Valenciennes, Dec. 34. The principal Commanders of the two Irish Regiments that lie here in Garrison, being sent for to Court, are gone thither. It was believed that a further Reform would be made in the French Militia; but we understand that in the Council of War, whereof the Marshal Villars is President, it is resolved to be put off for a longer time.

Friday last, Lieutenant-General Cadogan and Major-General Wightman arrived here from Stirling.

Whereas Information has been given to the Right Honourable the Lord High Chancellor of Great Britain, that several Justices of the Peace for the City and Liberty of Westminster, have illegally exacted Money from several Persons, under Pretence of Signing Certificates of their having taken the Oaths appointed by a late Act of Parliament, His Lordship has thereupon given immediate Order for the putting such Justices out of the Commission of the Peace; and the same is hereby published, in order to put a stop to the said illegal Practices.
